

March 10, 2018

Chairman Rodney Frelinghuysen
House Appropriations Committee
Washington, DC 20515

Congresswoman Nita Lowey
House Appropriations Committee
Washington, D.C. 20515

Chairman Thad Cochran
Senate Appropriations Committee
Washington, D.C. 20510

Senator Patrick Leahy
Senate Appropriations Committee
Washington, D.C. 20510

Dear Chairman Frelinghuysen, Ranking Member Lowey, Chairman Cochran, and Ranking Member Leahy:

Thank you for your leadership in support of maternal and child health programs serving the most vulnerable. As faith-based organizations and individuals who view these programs as a moral responsibility of the United States, we are grateful for your commitment to saving the lives of women and children around the world. As your committees develop the FY 2019 State and Foreign Operations Appropriations bills, we write to express our support for fully funding the International Affairs Account at or above the FY 2017 enacted level. We specifically request that you maintain level funding for the maternal, newborn and child health and international family planning accounts.

As members of the *Faith-Based Coalition for Healthy Mothers and Children Worldwide*, a network of advocates speaking out about the struggles that mothers and children in developing nations face daily, we know that an investment in family planning is an investment that saves lives, particularly in areas of conflict and instability.

When women and girls lack access to the education and resources they need to create a healthy plan for becoming mothers, the result is tragic—303,000 women in developing nations die from preventable complications during childbirth, and 5.9 million children die before their fifth birthday each year. In many cases these mothers and children are without a home or the resources needed for basic care due to conflict, as women and girls make up 80 percent of internally displaced persons (IDPs) and refugees globally.

In his FY19 Budget Request, the President has recommended funding international family planning in the global health programs account at approximately half of the FY17 level. If Congress were to follow through on this recommended cut, it would critically endanger programs that save lives and improve the health of millions of women and children every year. We respectfully ask you to consider this cost and to restore the funding to international family planning at or above FY17 levels.

We recognize the difficult decisions you face in a constrained budget environment, but we know the truly life-saving impact of U.S. investments in women and children. As people of faith we believe that we all have a duty to do what is within our power to help uplift these women and their families to flourish through improved health. Thank you for your consideration.

Sincerely,

Senator William H. Frist, MD
